Description

Environment: Windows 11, Chrome 138.0.7204.169

Preconditions:
User account exists and verified; login page open.

Steps to reproduce:

1. Attempt to log in with incorrect password more than 5 times in a row.

2. Observe system behavior.

Expected result:
After 5 failed attempts, message *“Too many attempts. Try again later.”* appears; user temporarily blocked.

Actual result:
System continues to allow unlimited failed attempts without showing restriction message.
